

It is in violation of the first amendment rights granted by the Constitution of the United States of America to remove net neutrality. Please do not make the mistake of passing this bill – the American people want and need a freely accessible internet in order to be the land of the free we claim to be. I – and every other American not linked directly with a cable/internet provider – strongly support net neutrality backed by Title 2 oversight of ISPs. Please make the decision that has your constituents in mind.

Sincerely,

Amanda Abbott
